Rangpur at a Glance

Rangpur is one of the 8 divisions of Bangladesh. This is situated in the northern part of Bangladesh. Rangpur City is 330 kilomiters away from capital Dhaka. Rangpur is well communicated with Dhaka by rail, road & air. The nearest Airport is Saidpur which is 25km form our campus. The city is one of the oldest town in the northern region of the country. It is a place of old heritage of culture and history. In the British India, it was a part of Assam. Rangpur is also well communicated with Kolkata, Katmandu & Thimpu by road, rail & air.

Begum Rokeya (1880-1932), a renowned educationist and writer born in this District. She was a pioneer in those days for her contribution for female education. An Educational & Vocational Centre (Begum Rokeya Kendra) has been established in her birth place (Pairaband, Mithapukur, Rangpur).

Tajhat "Raj Bari" is an old Jaminder House (Residence of the then Maharaja) which is build in early 20th century. Recently it's converted into a beautiful museum.

A large and modern theme park (Vinnoya Jagat) has been developed in this district where many tourist spend their memorable hours throughout the year.

Rangpur, being situated in the northern part of the country and comparatively closer of the Himalyas, the lowest temperature in winter falls 5 to 6 Degree Celsius and during summer highest temperature becomes 32 to 33 degrees. The climate remain excellent throughout the year with the flavor of 6 (six) seasons of the country.

HISTORY OF PRIME MEDICAL COLLEGE

Prime Medical College is one of the best and largest private medical college in Bangladesh. It was established in 2008 by a group of dedicated people of Rangpur, by the leadership of Professor Dr. Md. Akkas Ali Sarker. The ideas of establishing this Medical College is to provide international standard Medical Education, and Health Services to the people of the country at affordable cost.

The objectives of the institute are

- To promote and provide studies in Medical Science leading to be recognized by the postgraduate institutes.
- To conduct research work on the diseases prevalent in the country.
- To conduct research on medical education with the aim of raising the standard of medical education in the country.
- To provide skilled manpower in the medical, nursing and paramedical fields.
- To provide quality medical care and heath services to people at reasonable cost.

The establishment of a medical college imparting medical education leading to recognized medical degree was taken as the first and foremost aim to the institute.

College information

Official Name : Prime Medical College

Location : Prime Medical College is located North-West part of Bangladesh and about 300 KM

from the capital Dhaka and 90 KM from CHANGRABANDHA border in Cooch Behar, West Bangal, India. And also about 170 KM from Bagdogra Airport west bangal India. COURSE CURRICULUM & EXAMINATIONS

Teaching Staff

All departments have well qualified teaching staff, trained in Bangladesh, United Kingdom, United States and other countries. The Management and the teaching staff are highly motivated and sincerely interested in Optimal patient care, and in the teaching of medical students and junior doctor. Excellent and intensive supervision is provided to them.

Methods

Teaching is imported through lectures, demonstration, tutorials, ward clinics, practical classes, field visits, guided study tours and surveys on health problems. Monthly clinical meetings are held on a regular basis. Teaching aids such as overhead projectors, slide projectors, multimedia projectors, computers with teaching CDs are used in the teaching of students.

College Accommodation

Prime Medical College is a seven storied building. Which is a very spacious building with modern structural design. Every floor has a capacity of approximately 25,000 sft. All the administrative and the modern facilities of an ideal medical educational institute are available here. There are adequate number of teachers and other staffs in this College. At present the college has capacity of teaching about 900 students.

Class Rooms

There are 6 large fully airconditioned Galleries. In addition, there are departmental tutorial rooms attached with the respective departments. The Anatomy Dissection Hall is fully air conditioned. The laboratories of various departments are well equipped with instruments.

Audiovisual Equipment

Each Gallery and class room is provided with overhead projector, slide projector and digital sound systems. In addition, multimedia projectors and computers are also available for teaching.

Grading at the examinations

Pass Mark is minimum 60% in written, oral, practical & clinical subjects, 10% of written examination of each paper of each subject is allocated for formative examination and 20% is allocated for MCQ. Time allocation is 1 minute for each question consisting of 5 stems (20 questions).

Honours mark is 75% or more of the total in the subjects of the examination. Merit positions are declared only in the cases of regular students. Irregular students have no claim over Honours declaration and Merit position declaration. Those students who pass their examinations in the scheduled time are considered as regular students.

Internship

Students who have been awarded the MBBS degree by the Rajshahi University have to do one year of internship at the Prime Medical College Hospital for full registration with the Bangladesh Medical and Dental Council (BMDC). Internship Programme is conducted as per BMDC Prescribed rules. Internee Doctors will get as per hospital rules.

FACILITIES AVAILABLE IN THE COLLEGE

Library

College has a fully air conditioned library located on the 2nd and 3rd floor. The library has a collection of over 5,000 text books of latest addition, references, monographs & journals in various subjects, magazines and newspapers, also subcribed online journals. The library provides updated information to students and teachers. The library reading room can accommodate about 300 students at a time. Students and teachers can also borrow text books for use at home. Very recently internet connection has been provided in the library so that students can download recent scientific materials. The library remains open 8am to 9pm except holidays. There is also scope of having photocopies and all other learning facilities available in librabry.

Medical Education Unit (MEU)

MEU has modern computers, printers (Leaser, Ink-jet), scanner, internet and e-mail facilities. The computers are freely available to the students. The MEU has MEDLINE Database (1966 to current) on DVD/CD ROM with further access to the National Library of Medicine (NLM) in USA through the Internet.

Transportation

The college have Micro, Micro-bus, mini-bus, bus for students transporting, field visit and recreation visit. .

Common Room

There are two common room for students (One for males and one for females) with television, internet, daily news paper and some indoor games.

Extra Curricular Activities

There are facilites for extra curricular activities like Indoor/outdoor games, cultural programes, free blood donation camp, eye sight test, free donation of medicine for poor people, destribution of winter cloths, observation of national & International days etc.

Students publish wall paper and annual magazine. Debates, seminars and cultural events are held regularly. The college also publishes its own Internationally recognized medical journal.

Hostel Accommodation

Prime Medical College has several hostels for its all MBBS students and residence doctors within the campus. The College has two separate hostels within the college campus for both male and female student having facilities for foreign students in a separate earmarked block. Residential facilities like single, double and triple beded room for student and table, chair, cupboard, 24 hours supply of water, electricity & Laundry services are available. There has several kitchens available and to prepare the foods to considering religious view. Hostel common room has the facilities like T.V. with Cable connection, indoor game. Besides Wi-Fi internet connection are also available.

Weekend Facilities

The College has its fleet of transport which can be used by the group of students both foreign and local for outside sight seeing visit, picnic, pleasure trip etc. in the weekend with permission of the college authority.

Guardians Participation

Guardians Advice on the college affairs is welcome. There exists a Guardians Advisory Committee, which meets once in four months. There is one representative of guardians in the Governing Body. Guardians are communicated regularly about their children's academic performance and class attendance. They are often invited to put forward suggestions on how to improve the performance of the students. The Members of the Committee are selected annually from the guardians of the students.

Conference Room

There is a fully air-conditioned conference room having arrengement of sitting of 100 people. This is situated in the ground floor of the college building.

MESSAGE OF FOREIGN STUDENT

Thoudam Chandish Singh Batch: PMC-6 Manipur, India

We are very fortunate to be here in Prime Medical College. The college has excellent infrastructure starting from 750 bedded Hospital to integrated classroom. All the professors and lecturers are friendly and very helpful which students feel care in learning.

Classrooms are well equipped with modern learning instruments. Prime medical college has everything needed by a medical student to shine bright in future as a skilled doctor.

Thinley Zam
Batch: PMC-7
Bhutan

I am Thinley Zam, student of 1st year of Prime Medical College, Rangpur. D/O Mr. Damcho Dorji, Honorable Minister of Home and Cultural of Royal Bhutan Govt. It is my pleasure & golden opportunity for studying in this medical college, where academic and extra academic activities are excellent. All students, teachers, staffs are very cordial. I am resident in campus based hostel, where hostel mates are very co-operative. Overall, I fund this medical college in Northern Bangladesh.

Keshav Roka Batch : PMC-6 Nepal

STUDENT OF THE YEAR 2015

MESSAGE

It's honour to be here and I feel pride to be a part of Prime Medical College.

To be surrounded by warm hearted and friendly people over these years is exciting. It's a matter of pride to be here in a college which has well equipped lecture classes practical rooms and hospital with modern equipments. I would like to thank Prime Medical College family for accepting me as the part of this huge family.

Khushpreet Singh Handa Batch: PMC-8 Kashmir, India

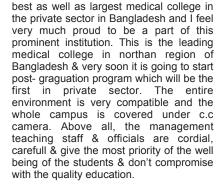

Its my pleasure to be here on Prime Medical College, where academic and extra academic activities are excellent. All professors and lecturers are friendly and very helpful to students which feel care in learning. The college has a hospital with 750 beds with modern equipment and all clinical facilities.

The college makes you feel at home.

MESSAGE OF FOREIGN STUDENT

Mayank Kumar Batch: PMC-9 Bihar, India

The Prime Medical College is one of the

Techi Pui Batch: PMC-6 Arunachal Pradesh

Inspite of establishing few years back in compare to many other private medical colleges of Bangladesh Prime Medical College has achieved top class standard in this arena. Highly qualified & experienced faculty, excellent atmosphere which is hustle & bustle free of the city & efficient office staff made this institution different from others

The college big library is enriched with different types of books which is the prerequisite to be a good doctor. Hospital provides with 750 beds with all clinical departments.

I'm honored to here admission here and hope you will join us too.

I'm very much glad to announce that Prime Medical College is the most promising college in private medical education sector of Bangladesh. It's experienced faculty. excellent infrastructure & adequate campus amenities enriches its reputation rapidly. The students of this college not only

engaged themselves into academic curriculum but also it provides extracarricular activities like indoor / outdoor games, cultural programs & observes national & international days regularly. So, I, recommend to everyone who loves to study in the medical education & keep one step ahead as a skilled doctor in future.

Saptadipa Sutradhar Batch PMC-10 Assam, India

We are very fortunate to be here in Prime Medical College, which is one of the best mest medical college in North-West part of Bangladesh. The college has excellent Infrastructure starting from 750 bedded hospital to integrated classroom. The Laboratories are well equpped with modern Instruments here. Actually all facilities are available here to make a student as a good doctor in future. We have opportunity for extracurriular activities live cultural programmes and indoor/ outdoor games.

The college has a group of dedicated, experienced and friendly teachers. Faculty members make the student feel easy in learning process.

NICU

Dialysis Center

General Word

ACADEMIC ACTIVITIES OF THE HOSPITAL

Students Teaching:

All assistant Professors, Associate Professors and Professors teach the students who are placed in the wards everyday in the morning. Students are placed in small groups. Teaching in the morning is primarily done by Faculty Members. Registers teach the students in the evening session. Students are required to complete their cards and other assessment criteria before being allowed to take the MBBS final professional examinations.

Post Graduate Teaching:

Regular postgraduate teaching is imparted to Registrars, Assistant Registrars and Interns with regard to theory, diagnosis and management of patients. Registrars and Assistant Registrars are encouraged to attend teaching sessions in class rooms and wards. Complicated cases are routinely discussed with them with a view to train them in the management of patients. Assistant Registrars have hands on training in management of patients. The Intensive Care Unit and the Coronary Care Unit serve as ideal points for teaching on critically ill patients.

Journal Club:

Journal Club Meeting is held in clinical departments once in a week and are attended by all members of the Department. Papers are read by the members of the Faculty, interns and junior doctors take part and important journals are regularly covered.

Scientific Seminar:

Seminar on topics of current interest/new discoveries/new therapeutic methods are held on regular basis in the college/hospital primesies.
